SKILL AND TECHNIQUE BASED CLASSES

Acro and Turns & Leaps classes require a specific level of strength, flexibility, body placement, and body awareness. It is vital that dancers are placed in the correct classes based on experience and ability to avoid possible injuries. Each class has a list of required skills for each level, and in order for a dancer to be placed in a specific level, he/she must have all of the skills on the list with proper technique. If a dancer enrolls in a level and eventually gains all of the skills in that class and is able to move to the next level, the dancer and parent will be notified, and they can move levels if they would like to. This opportunity of moving up will be available during the entire season.

If your dancer is registering for an Acro or Turns & Leaps class, please be prepared and open to possibly switch classes if skills have or have not been attained for that class.

If your dancer does not meet the requirements of their age, we recommend private lessons to help guide them towards their goals!
